

I want to address comments made in the election campaign regarding an illegal audit and set the record straight.

Council reported, specifically I reported that there were anomalies in expense reports and they were turned over to the RCMP for investigation.

At no time did I say there was a forensic audit, at no time did I say there was an audit. Only Mr. Breton referred to a forensic audit at the August 11 meeting.

There was no audit, there was no forensic audit performed by anyone, including myself. There was no motion by Council to engage anyone to perform a forensic audit. There was no engagement letter signed for a forensic audit. There was no illegal audit.

When asked by Mr. Breton, who reviewed the expense reports I said I did, and I did, Mr. Londeau did, Mr. Henderson did, and Ms. Blais did, we all looked at the expense reports. We all concluded there were anomalies.

Mr. Breton says he was targeted. No he was not; council and administration reviewed the expense reports of:

Ms. Hamilton.

Ms. Muir

Mr. Londeau

Mr. Miller

Mr. Henderson

Ms. Worden

Ms. Blais

Mr. Breton

At no time did Council indicate whose report had anomalies.

Further, the expense reports of Council and Administration are supporting documents to the financial statements, and as such are public documents under the Municipal Government Act.

I would like to make a motion to put all Council, Administration, Employee and Contractor Expense reports on the Web Site.
