- 8- **The applicants are required to have a Real Property Report (RPR), prepared and signed by an Alberta Land Surveyor, and submitted to the Development Officer. The RPR is to be completed at foundation stage and prior to commencement of framing of the development, for evaluating the compliance of the development against all Land Use regulations relating to the building(s) that are the subject of this development permit application, including the ground floor elevation.**
- 9- The applicant shall obtain and adhere to the requirements where applicable, from the appropriate authority, permits relating to demolition, building, electricity, plumbing and drainage, and all other permits required in connection with the proposed development.
- 10- The applicant shall be financially responsible during construction for any damage by the applicant, his servants, his suppliers, agents or contractors, to any public or private property.
- 11- The applicant shall prevent excess soil or debris from being spilled on public streets and lanes, and shall not place soil or any other material on adjacent properties without permission in writing from adjacent property owners.
- 12- **The improvements take place in accordance with the plans and sketches submitted as part of the permit application, INCLUDING:**
 - **This is a split drainage lot; where stormwater should be equally directed to the drainage ditches at the front and rear of the Lands. A minimum 2% slope is recommended to achieve surface drainage;**
 - **Front Yard setback shall be a minimum of 6.1 metres;**
 - **Side Yard setback shall be a minimum of 1.5 metres or greater distance as required under the Alberta Building Code;**
 - **Rear Yard setback shall be a minimum of 1.0 metre;**
 - **Maximum Height shall be 9.45 metres (average grade to peak); and**
 - **The foundation of the building shall be enclosed, skirted, and parged.**
- 13- All improvements shall be completed within twelve (12) months of the effective date of the permit.
- 14- The applicant is responsible for designing and constructing a building foundation drainage system adequate for the existing soil conditions.
- 15- The applicant is responsible for determining if there are any special considerations required for building foundation construction.
- 16- The site and improvements thereon shall be maintained in a clean and tidy condition during construction, free from rubbish and debris. Receptacles for the purpose of disposing of rubbish and debris shall be provided to prevent scatter of debris and rubbish.
